

DATA SHEET

NURSING EXCELLENCE SOLUTION

# Pursue nursing excellence across performance domains

## Achieving safe, high quality care relies on effective nursing strategies and quality improvement programs.

The Press Ganey Nursing Excellence Solution provides nursing leaders with a single, comprehensive source for patient experience, NDNQI® nursing quality indicators and nurse engagement survey data.

By aligning these data sources and providing streamlined reporting, Nursing Excellence Solution facilitates the performance improvement process, improving communication across units and teams. It also helps nursing organizations:

- 1** **Cultivate** a culture of transparency.
- 2** **Decreases** organizational burden on data and reporting resources.
- 3** **Less reliance** on Magnet consultants and time spent pulling data by Magnet site coordinators.

Through intuitive, dynamic dashboards and advanced reporting, the Nursing Excellence Solution empowers nursing leaders with actionable insights across key performance metrics and data sources.

**Consolidates** nursing performance metrics.

**Organizes dashboards** so you know where to focus.

**Solution drill downs** to the unit level.

**Rapid identification** of high-performing units.

## Partnership to improve nursing performance

The Nursing Excellence Solution includes advisory support, knowledgeable subject matter experts.

The Nursing Excellence Advisors leverage their expertise across solutions and data sources for patient experience, nurse engagement, and clinical quality domains to identify data and outcomes that impact the achievement of nursing excellence.

## Next steps
