

DATA SHEET

iROUND

Meet your patient's needs - in real time.

Spend more time focusing on patient care and less time on administrative functions with Press Ganey's comprehensive rounding solution.

Drive meaningful interactions with patients and improve their experience in real time. Press Ganey's intuitive and data-driven digital rounding solution, iRound, modernizes and streamlines your approach to care.

Improve the patient experience through purposeful rounds using a patient-centric approach to enhance care, communication and outcomes.

Enhance the quality of your service with real-time data and alerts to deliver actionable results through a closed-loop communication platform.

Increase employee engagement by viewing feedback on specialized initiatives at the employee level; driving house-wide accountability and issue resolution with the closed-loop system; and rewarding exemplary behaviors to transform culture.

Why iRound?

Access your one-stop shop

Transform your patients' experience and improve staff performance by using a single platform that integrates patient rounding, service recovery, staff rounding, and quality and safety rounding.

Drive outcomes that matter

Work with your dedicated team of advisors to capture patient data that is important to you by customizing rounding surveys.

Fix issues fast

Real-time service recovery alerts paired with closed-loop ticketing and real-time reporting on patient data helps to quickly identify patient needs and resolve any patient experience issues during care.

Visualize your data

Easily navigate and review real-time summaries of rounding results in the performance dashboards, then use these findings to drive action.
